Broadgate

MANAGED IT & SECURITY

Your network. Your building. Looked after.

We install, manage and support your Wi-Fi, network, CCTV and door entry, so your business stays connected and secure without you having to think about it.

Everything cloud managed.

Every device we install connects to our management portal, so we can check, update and fix most problems remotely, often before you notice them.

Wi-Fi

Fast, reliable Wi-Fi across your offices, shops or hotel, including separate guest networks.

Networks and firewalls

Switches, routers and firewalls from Cisco Meraki, WatchGuard, Zyxel, DrayTek and Grandstream.

CCTV

Uniview cameras, recorded securely and viewable from your phone or computer.

Door entry and access control

Grandstream and 2N door entry, with fobs, fingerprint or facial recognition.

Buy it or include it

Buy your equipment outright, or include it in your monthly cost, with free replacement if it fails.

One partner

One bill, one support team and a named account manager.

Free site review

We'll look at your site and what you have today, and recommend the right setup.

MANAGED IT & SECURITY

Built around your site

From a small office to a 150-room hotel, every installation is designed around your building and how you use it.

STEP 1

We survey your site

What you have, what you need and where.

STEP 2

We design and install

The right equipment, fitted by our own engineers.

STEP 3

We manage and support it

Monitored through our cloud portal, all supported by us.

Every device on record.

We keep a record of every device we install, where it is and how it's set up, so nothing gets lost when people or suppliers change.

Support that fits how you work

SUPPORT PLANS

Business hours

Monday to Friday.

Extended

Adds weekends and bank holidays, popular with garages and dealerships.

24/7/365

For hotels and sites that never close.

From an office to a hotel

- A small office
- A multi-site business
- A hotel with over 150 rooms

Need IT support too? We work with select IT partners to look after your computers and users, all through one point of contact.

Talk to one of our experts

Tell us about your site and what you need to protect, and we'll recommend the right setup.
