

Broadgate

BUSINESS PHONE SYSTEMS

Built for most businesses. Matched to yours.

GoYap, our own cloud phone system, gives most businesses everything they need at the right price. For particular needs, we also offer leading platforms and Microsoft Teams.

GoYap

Our own cloud phone system, built to give most businesses everything they need at the right price.

Leading partner platforms

Such as BT Cloud Voice and Gamma Horizon, each chosen for what it does best.

Microsoft Teams

Calling through Teams, if that's where your team already works.

Happy with your phone system? Keep it.

Avaya IP Office, Mitel, Samsung and other on-site systems can connect to Broadgate with SIP trunks. Or blend the two: keep your system in the office and add GoYap for remote and mobile staff.

Our own platform

We own GoYap, so our pricing is competitive.

Work anywhere

Desk phone, desktop app and mobile app, with up to nine devices per user.

Handsets included

Included in your monthly cost, swapped free if they fail, with upgrades every three years if needed.

Bring your own device

Keep your existing handsets if they're on our approved list, such as Yealink, Polycom and Cisco.

Simple switching

We build and test everything first, so there's only a brief pause while your numbers move.

One partner

One bill, one support team and a named account manager.

Free communications review

We'll look at how your business uses its phones today and recommend the right setup.

Build the right plan for every user

Every user gets the tools they need, and you only pay for what they use. Start with a business phone line, then add the desktop app, GoYap Mobile and any extras.

Every phone system essential, as standard

Even our basic business phone line includes all the standard features of a business phone system, such as voicemail to email, auto attendant, hunt groups, call queuing, call forwarding, do not disturb and call transfer.

STEP 1

Business phone line

A desk phone with all the standard features.

STEP 2

Add the desktop app

Calls, chat, presence and conferencing on your computer.

STEP 3

Add GoYap Mobile

Your business line on your mobile, anywhere.

STEP 4

Add the extras you need

Choose from the add-ons below.

Add what you need

OPTIONAL ADD-ONS

Automatic call recording

Call queues (ACD) and supervisor tools

Wallboards

Reception console

CRM integration

Call reporting

Video meetings

Microsoft Teams

No desk? No problem. Users can work entirely from GoYap Mobile, with no desk phone needed.

Over 60 features available. Mix and match for each user, with pricing built around your business.

See it first. Then try it free.

We'll show you how GoYap works for your team in a short demo, then set you up with a free trial, usually within minutes.

Book your demo
