

Broadgate

BROADGATE VOICE AND DATA

One partner for how your business talks and works.

Phone systems, business mobiles, internet and Microsoft 365, all looked after by one team. One bill, one support team and your own named account manager.

Phone systems

GoYap, our own cloud phone system, plus leading partner platforms. Or keep your on-site system and connect it with SIP.

Business mobiles

EE, O2, Vodafone, Three or Gamma, or GoYap mobile on BT/EE. With FMC, every mobile becomes an extension.

Internet connectivity

Broadband, fibre, leased lines, 4G/5G and Starlink, chosen from many carriers for the best price and backed up if you need it.

Microsoft 365 and Teams

Your Microsoft licences through us, often for less, billed monthly. Teams calling in the way that suits you.

Networks and security

Wi-Fi, switches, firewalls, CCTV, door entry and access control, installed by us and managed in the cloud.

AI and integrations

AI call reporting, an AI receptionist, and links to over 200 CRM systems. We also write our own APIs.

We're here to make your life easy.

We look after your communications from start to finish, so you can get on with running your business. Need a change? One call to your account manager sorts it.

One bill

Every service on a single monthly bill.

Named account manager

One person who knows your business.

Grows with you

From one office to hundreds of sites.

Free communications review

We'll look at how your business uses its phones, mobiles and internet today and show you where we can help.

WHY BUSINESSES STAY WITH US

Some of our customers have been with us for **25 years.**

We brought together people from telecoms companies that have since merged, and we stopped counting at 50 years' combined experience. We're regulated by Ofcom, and our UK support team looks after businesses of every size, from a single office to organisations with hundreds of sites.

How we choose what we sell

We pick products for reliability, flexibility and value for money, and above all for being cloud managed, with a portal for diagnostics and management. Every device we install is recorded, so we always know what you have.

Everyone needs a car...

...but not everyone wants the same one.

A range for every budget

From good value to premium, matched to what you need.

Always a fit

If GoYap isn't the best fit, we have a partner platform that is.

How switching works

1

Review

We look at what you have today and what you need.

2

Build and test

We set everything up and test it before anything changes.

3

Switch

Your numbers move with only a brief pause.

4

Look after

Your account manager and UK support team are there from day one.

Who we work with

Solicitors

Recruitment

Hotels

Estate agents

Garages and dealerships

Architects

Mortgage advisers

Travel agents

Advertising agencies

Call centres

Multi-site organisations

Support that fits your hours

Business hours

Support during the working day, for most offices.

Extended

Adds weekends and bank holidays, for businesses that open longer.

24/7/365

Round-the-clock cover, for hotels and anyone who can't stop.

When we supply the equipment, anything that develops a fault is replaced free of charge.

See it first. Then try it free.

We'll show you how it would work for your business in a short demo, then set you up with a free trial, usually within minutes.
